## || about us

**We offer specialized outsourced repair and maintenance solutions for diverse industrial and commercial equipment.**

Do you want to eliminate on-site equipment malfunctions and keep your operations running smoothly? We know that your business relies on dependable equipment to complete tasks effectively, and even minor issues can cause significant setbacks. That's where we come in, simplifying equipment maintenance for you.

Are you tired of contacting tech or product support for recurring problems and facing charges each time? Our convenient and cost-effective support services are designed to maintain optimal equipment performance, ensuring you stay on track and worry-free.

“ Our goal is to help your business run effectively. That means having equipment that works and support you can count on. The more successful you are, the more successful we are. ”

We are a proudly Canadian company, boasting facilities and dedicated team members across the nation. Our team of skilled professionals is committed to equipping your business with the essential tools for success.

We provide flexible service solutions, supported by our team of proficient technicians who are dedicated to bolstering your business. Our team adheres to a set of core values that align our success with that of our customers, ensuring we consistently deliver outstanding results.

How can we support your business?

We have a wide range of expertise under one roof.

NOTIFICATION REPORT

We are committed to exceptional service, prioritizing customer success as our driving force. Our cost-effective, streamlined repair solutions are readily available to meet your needs.

# SERVICE

Authorized Warranty Services: Our factory-trained technicians skillfully execute warranty work on a wide array of pre-approved products, employing a systematic approach to document and submit thorough diagnostic, repair, and root cause reports. With authorization from numerous manufacturers, and acceptance of our meticulous warranty claims by others, we enable customers to utilize our repair services and obtain warranty reimbursements directly from manufacturers.

**Contact us. Share your goals.**  
 Our smart outsourced solution provides the flexibility and result you expect to keep equipment operating as required.

# our strategies

## PROCESS BASED SYSTEM

**The equipment on the job directly adds value for owners.**

**Your challenge:** Managing large diverse fleets, multiple equipment types / requirements for specific expertise.

**Our Objective:** Provide a customized, cost effective equipment repair outsourcing program based upon your specific requirements.

**Our Solutions:** A documented process based approach provides total transparency into all aspects of repair and/or maintenance.

- **Detailed quotes for all service provided, complete with detailed high resolution photos**
- **Clear transparency in hour and time usage with detailed digital records**
- **Recommendations designed to increase value and reliability of equipment**
- **Optional service agreements for long term support**
- **Fleet Management support services**

**As far as we're concerned, we haven't done our job until you've banked the profit you've made from using equipment we provide services on.**

If your equipment is not getting the job done, then having a profitable job is that much tougher. If you don't have access to dependable post-sales service and technical support, it's that much more difficult and expensive to service your customers and secure their repeat business.
